ADMINISTRATION

. . . kind . . . considerate . . . friendly . . . sponsoring extra-curricular activities . . . ready to dish out admit slips, excuses, and lost or mislayed books.

SENIORS

. . . time wasters . . . hall travelers . . . experts in the fine art of skipping . . . who now only realize that the fullness of their lives was met by a gracious faculty, in good friendships, and wholesome school spirit during the four years now drawn to a close.

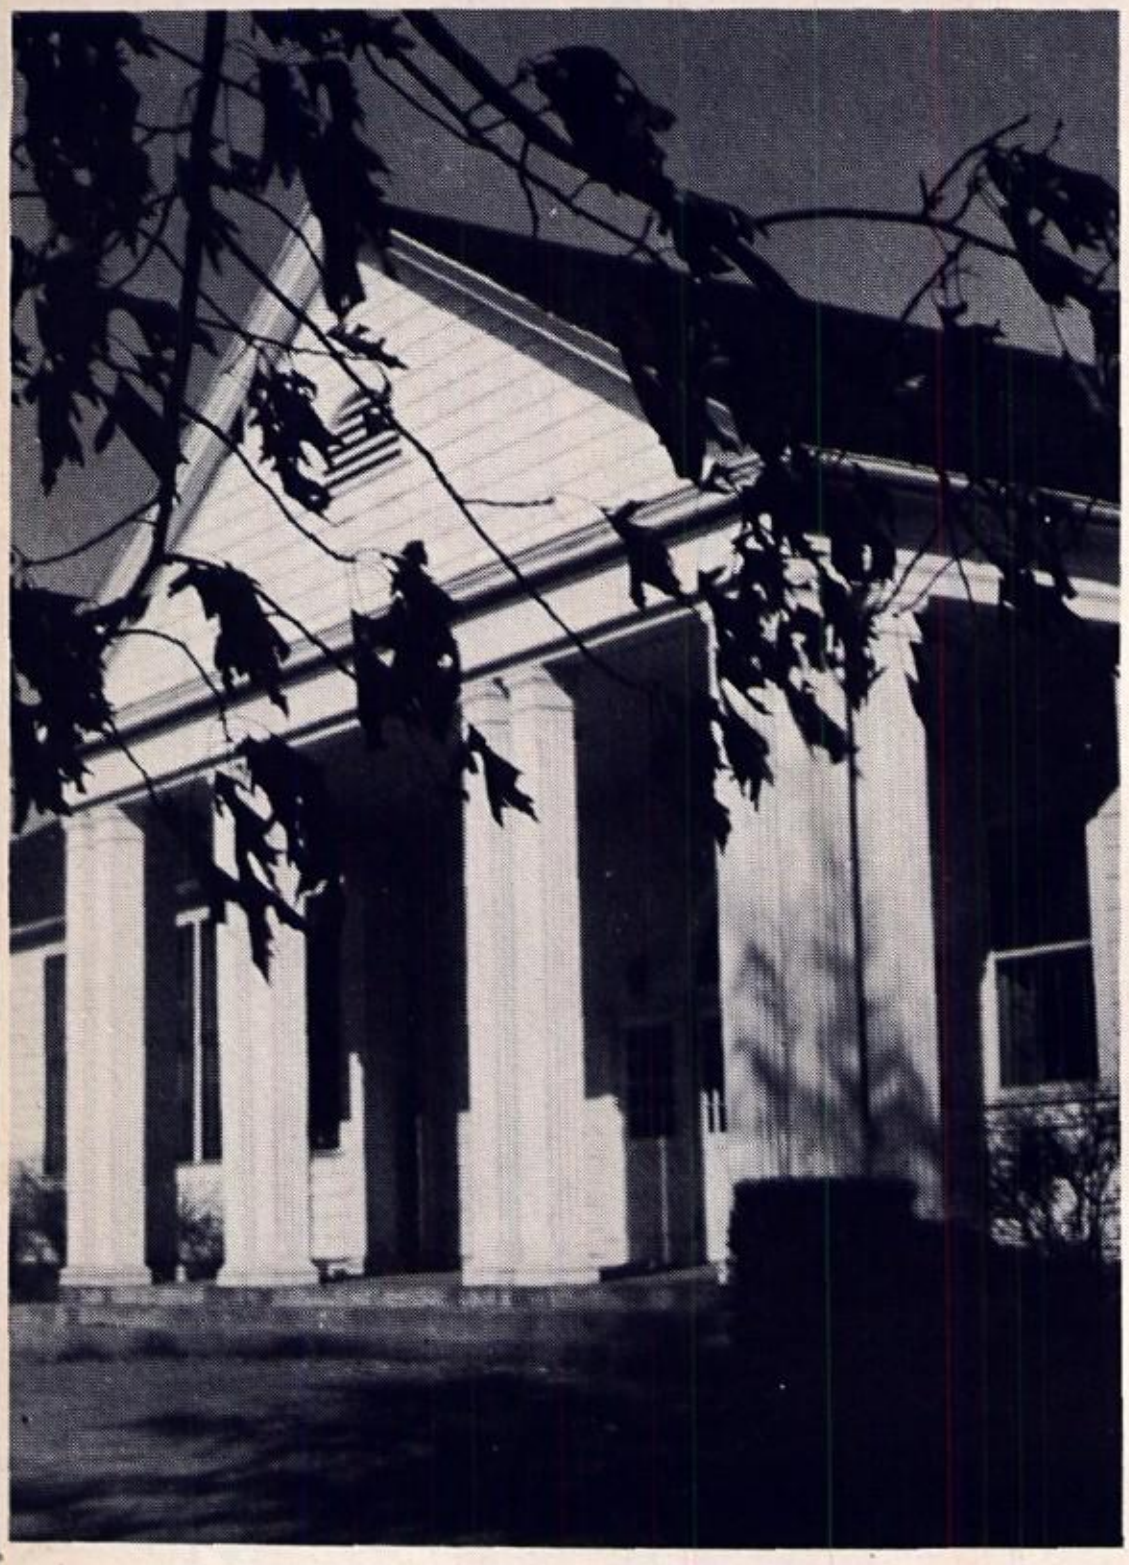
SCHOOL LIFE

. . . daily classes . . . Sno' Queen . . . May Queen . . . all those important activities which go to make up a senior's school life.

SPORTS

. . . tri-county basketball champs . . . a hard hitting, hard playing crew of boys and girls in whom everyone had faith.

Within these hallowed walls . . .



Our Administrators . . .

The faculty who,
chaperoned busses,
aided with the planning of dances and parties,
dreaded exam time as much
as the student because of those endless papers
to be corrected . . .
are criticized, yet respected and admired
by all who are proud
to call them "friend".

RICHARD A. BARR . . . Principal; B. A.; M. A.; University of Maryland; Johns Hopkins University; Lions Club; P. T. A.; Vice-president of Charles County Education Association.

MR. RICHARD A. BARR

A principal who —
believes that a good administrator is one who is the best servant, who is one that works with others and never regards himself as one who directs, who believes that a school is an institution run for the benefit of the student, and whose main objective has been to serve teachers, students and community with honesty, kindness and intelligence.

He keeps things running
This is the clock that rings the bells, that wakes us up, that makes us move, that begins each class . . . that ends each day . . . and with each tick and tock reminds us "it has been so short . . . so nice . . . and now it's over".

A gracious manner and eveready smile have endeared Miss Bowie to the students and teachers of Charles County.

DR. RICHARD DANIEL WEIGLE, Ph. D.

President, Saint John's College

The presence of the brilliant and scholarly Richard Weigle, Ph.D., enhanced the day of graduation considerably. Dr. Weigle, a Yale graduate, and member of Phi Beta Kappa at nineteen, Air Corps Captain, member of the first American party to enter Nanking before the formal Jap surrender, executive officer of the State Department's Far Eastern Affairs and now President of St. John's College at Annapolis gave us all courage, incentive and hope, by his presence at graduation and his talk.

was controlled by bells, was spent
awaiting each Friday, and revolved around
our many activities. We doodled, daydreamed,
and tried to get out of homework; looked
longingly out the windows, ran to fires, envied the
volunteer firemen, added old pool scores and in
general did all the things that today become a
memory.

We have tried to make this issue of the "Tee Pee" the best in Lackey history. Our hope was to make it interesting to the student and that is why we included those things that we believed to be the events our students would enjoy.

This is our offering . . . We are grateful to all who helped us . . . the teachers who gave us time from classes, the parents who patted us on the back with their dollars in support of our book, and the business men who thought enough of our journalistic venture to advertise their wares in our "Tee Pee".

It's been fun . . . we hope you like it.

PRESSURE groups motivated by selfish or partisan purposes still seek to undermine our public schools by falsely discrediting educational policies and practices. Many of these groups, deliberately hoping to beguile the public, have chosen names easily confused with those of educational organizations of unquestionable integrity. Under these deceptive labels they put out their propaganda.

This past May the following resolution, submitted by the **Maryland Congress,** was adopted by the body of delegates to the annual national convention, the governing body of the National Congress of Parents and Teachers.

WHEREAS, it is generally recognized that there is a conflict of ideologies in the world today, and

WHEREAS, it has been generally realized that since wars are conceived in the minds of men that the defenses of peace must be constructed, and

WHEREAS, Communism, totalitarianism, and any other form of subversive activity are recognized as threats to our democratic way of life, and

WHEREAS, we firmly believe that our public school system is the basic institution through which our democratic ideals are fostered and perpetuated,

THEREFORE, BE IT RESOLVED, that the National Congress of Parents and Teachers use every means to alert the general public to those forces that seek to undermine our public schools, and

BE IT FURTHER RESOLVED, that we also seek the support of the said public in procuring adequate finances for obtaining professionally prepared and adequately paid teachers for our children and youth and for building sufficient functional school facilities:

ALSO, BE IT RESOLVED, that the National Congress of Parents and Teachers warn its local units to be aware of the possibility of being used as an instrument for promoting ideals that tend to negate our democratic way of life.
